PRESS RELEASE

Digitech commences EMS Billing Services for the City of Dallas Fire-Rescue

EMS billing services contract will bring increased efficiency to Dallas Fire-Rescue

Briarcliff Manor, NY – June 4, 2012– Digitech Computer Inc. today announced that processing of medical transportation billing for the City of Dallas Fire-Rescue Department has commenced under the terms of the contract signed earlier this year. Digitech will provide EMS billing services to process 67,000 transports annually. Digitech's expects their billing systems will dramatically increase revenue from collections for ambulance services in the City of Dallas.

"We are excited about our new partnership with Digitech," stated Jason Evans, Public Information Officer for Dallas Fire-Rescue. "Their reputation in the industry precedes itself, and we look forward to a productive working relationship which complements our long-standing tradition of quality customer service."

"Better technology means better care in the field," commented Walter Pickett, Jr., VP of Deployment and Support for Digitech. "Firefighters and paramedics need to focus on saving lives, not writing reports or organizing paperwork. Our advanced EMS billing systems will take a load off of Dallas Fire-Rescue's shoulders and lead to more efficiency and better standards of care for their patients."

Digitech's highly trained EMS billing services team relieves their clients and partners of day-to-day ambulance billing, providing them with more freedom to run their operations. The Company has been offering technology and billing services to the medical transportation industry since 1984.

Mark Schiowitz, President of Digitech Computer Inc., reported, "We are delighted to be able to develop a dedicated EMS billing solution for the Dallas Fire-Rescue Department. Through our services we can help ensure that Dallas firefighters and paramedics are concentrating on their jobs – taking care of patients – while we handle paperwork and deliver a significant increase in revenue."
