PRESS RELEASE

City of McKinney Awards EMS Billing Services Contract to Digitech

EMS billing services deal means more effective collections for McKinney

Briarcliff Manor, NY — May 23, 2012 — The City of McKinney, Texas, today inked an agreement naming **Digitech Computer, Inc.** as the recipient of the contract awarded for Emergency Medical Services Billing and Collection Service. Digitech will collect fees charged to individuals who are provided emergency transports by the City of McKinney Fire Department. The contract is for a three year term with two additional one year renewal options. McKinney, located 30 miles north of downtown Dallas, is marked as one of the fastest growing metropolitan areas in America, and was ranked #5 on Money Magazine's August 2010 list of the Best Places to Live in the country. McKinney officials, mindful of increasing demand for emergency transport services in the city, wanted an efficient billing solution that could integrate seamlessly with the electronic patient care reporting system already in use in the City's ambulances and emergency transport vehicles. Digitech filled the bill on both scores, winning the award against multiple bidders that included some of the largest service providers in the EMS billing industry.

Kyle Easley, Chief of McKinney Emergency Medical Services, stated that he looks forward to the new EMS Billing partnership. "Digitech brings a customer-focused approach to the table that's backed by solid technology and tested processes," he said, "We're anticipating increased efficiency for our ambulance billing and improvements to bottom line revenue that we can put back into better training and equipment for our medics and EMTs."

"Efficient handling of claims will make a difference in the quality of care that we can bring to the people of McKinney," commented Chief Daniel Kistner, Fire Chief for the McKinney Fire Department. "We're counting on Digitech to help us provide better service to our constituents."

Digitech's highly trained EMS billing services team relieves the client of day-to-day ambulance billing responsibilities, providing more freedom for them to run their operations. The Company has been offering technology and billing services to the medical transportation industry since 1984.

Mark Schiowitz, President of Digitech Computer Inc., said in response to the announcement, "We're thrilled to bring our dedicated EMS billing solution to McKinney. Our goal is to ensure that McKinney's firefighters, EMTs, and paramedics will be able to focus more time and attention on the things they do

About Digitech

Digitech Computer, Inc., an associate member of the Texas Fire Chiefs Association, has been providing advanced dispatching and billing software to the medical transportation industry since 1984. The Digitech team includes veterans of the ambulance industry, technical experts, software developers, and billing service professionals.

About Chief Daniel Kistner

Chief Kistner began his tenure as Fire Chief for the McKinney Fire Department in July 2011. He holds a Master’s degree in Fire and Emergency Management Administration from Oklahoma State University and is working on a PhD in Fire Service Administration. He is a graduate of the Texas Fire Chief’s Academy and a Chief Fire Officer designee. Daniel was one of six national candidates who in 2011 received fellowships to attend Harvard University’s Senior Executives in State and Local Government Program at the John F. Kennedy School of Government.

About EMS Chief Kyle Easley

With a professional fire service career of more than 16 years, Chief Easley joined the McKinney Fire Department in August of 2001. He holds an Associate’s Degree in Fire Science and is pursuing a Bachelor of Science in Public Safety Administration. He has promoted through the ranks of the McKinney Fire Department from firefighter to his current position of Battalion Chief in charge of EMS Operations.
